This can be done with the help of my application Hide Mock Locations (Attention!!! It works through the Xposed framework..) To do this you need to move the application to the system partition This is most easily done by using 'System App Converter' program.. On devices with Root access can use the app without a tick 'Allow mock locations'.

3 3 - 4 3: move the file 'ru gavrikov mocklocations apk' from the folder ' /data/app' in the folder ' /system/app' and reboot the device.. On Android 4 4 - 4 4 4: move the file 'ru gavrikov mocklocations apk' from the folder ' /data/app' in the folder in the folder ' /system/priv-app' and reboot the device.. search Mock Mock Location/MML Lanjut masuk play store download n instal Satpoll-app versi terbaru.
